Prescribing Medications at Your First Visit

Mid-State recognizes that medications are often used to manage health conditions. In order to ensure you have the correct medications for your conditions and health concerns, the following will be considered before ANY prescription is filled for a new patient:

- Your medical records must be received from your previously prescribing provider(s) – this sometimes takes up to 60 days from the time of our request and your first appointment. Please plan accordingly with your previous provider to ensure you do not run out of medication before your appointment.
- If you have an active prescription and will be in need of refills, it is imperative you indicate this to our staff when you are contacted to schedule an “Establish Care” visit.
- You **MUST** be seen for an “Establish Care” Visit, at which, the following will occur:
 - Review of existing health conditions, including evaluation and treatment history,
 - Review of your current medications,
 - Physical exam as needed to determine the necessity for the requested medications, and
 - If controlled substances are considered, a review of Mid-State’s policy for prescribing controlled medications and completion of a controlled substance contract is required.
- Mid-State’s providers cannot prescribe any controlled substance to someone who uses marijuana.
- *NOTE: Due to Federal regulations, Mid-State’s Providers are NOT able to write prescriptions for cannabis or marijuana in any form.*
- Any medications prescribed must be deemed appropriate by your Mid-State provider for your current condition(s) and based on your medical history.
- Your new Mid-State provider is not obliged to prescribe any previously prescribed medications you may be taking. There are often many options for treatment of chronic conditions and these will be reviewed with you at the visit.
